### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

None of the prior art of record shows or renders obvious the lubrication device of claims 1 and 7, specifically:

Claim 1 requires at least one electric motor drive disposed in said housing of said distribution device and coupled to said distributor body to rotate said distributor body, and communication with and controlled by said electronic control; and at least one switch disposed in said housing and in communication with said electric control and serving as a running path control for starting or stopping the rotational movement of said motor and said distributor body moving to different release angle positions.

Claim 7 requires at least one electric motor drive disposed in said housing of said distribution device, and in communication with said electronic control; at least one switch disposed in said housing and in communication with said electric control serving as running path control for starting or stopping the rotational movement of said electric motor and thus said distributor body moving to different release angle positions; and at least one pump disposed in said dispenser wherein said pump is in communication with said electric control operated separately from said motor, wherein said pump pumps said lubricant out of said distributor body and out of said distributor sleeve to lubricate the machine parts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
